Marvelous Cures
in Blood Poison
Rheumatism
and Scrofula

Are entirely removed by P. P. P.
-Prickly Ash, Poke Root and Potassium, the greatest blood purifier on earth.

ABERDEEN, O., July 21, 1893.
Messrs Lippman Bros., Savannah, Ga.: DEAR SIRS:—I bought a bottle of your P. P. P. at Hot Springs, Ark., and it has done me more good than three months' treatment at the Hot Springs. Send three bottles C. O. D.
Respectfully yours,
J. A. M. NEWTON,
Aberdeen, Brown County, O.
Capt. J. D. Johnston.

To all whom it may concern: I herewith testify to the wonderful properties of P. P. P. for eruptions of the skin. I suffered for several years with an unsightly and disagreeable eruption on my face. I tried every known remedy in vain, until P. P. P. was used, and am now entirely cured.
(Signed by) J. D. JOHNSTON,
Savannah, Ga.

Skin Cancer Cured.
Testimony from the Mayor of Sevin, Tex.
SEVIN, TEX., January 14, 1893.
Messrs Lippman Bros., Savannah, Ga.: Gentlemen—I have tried your P. P. P. for a disease of the skin, usually known as skin cancer of thirty years' standing, and could great relief: it purifies the blood and removes all irritation from the seat of the disease and prevents any spreading of the cancer. I have taken three or four bottles and feel confident that another course will effect a cure. It has also relieved me from indigestion and stomach troubles. Yours truly,
CAPT. W. M. RUST,
Attorney at Law.

WASHINGTON NOTES
GOSSIP OF THE CAPITAL IN BRIEF PARAGRAPHS.

Doings of the Chiefs and Heads of the Various Departments.

In the city of Washington, this month, the first annual convention of the National Mission Union will be held. It will be a notable gathering of rescue workers from all parts of the land.

Secretary of State Olney has received the following cable from Minister Terrel, dated at Therapin, a suburb of Constantinople: "There has been tranquility for the last forty-eight hours. Kiamil Pasha was appointed grand vizier. Dreading the influence of recent events in distant provinces, I have renewed my demand for efficient protection of missionaries."

United States Mint Director Preston has received unofficial information from Russia to the effect that the gold production of Siberia would this year largely exceed the output of last year, when Russia produced \$25,000,000 of gold. Mr. Preston estimates the gold production of the world this year at more than \$200,000,000 and that of the United States at \$46,000,000, being an increase over last year of about \$6,000,000.

Collector Wise, at San Francisco, has been instructed by Acting Secretary Hamlin to deport all the Chinese who were admitted as laborers for the midwinter exposition. The Chinese under the law were entitled to remain one year, but have overstayed that time. A month ago the Chinese laborers had it announced to the treasury department that they had departed, but this has been discovered to be a Chinese trick to throw the authorities off the track.

Attention is called to a very important but much neglected source of national wealth by United States Consul Chanceller at Havre in a report to the state department upon the pea industry. As America possesses an inexhaustible supply of pea, the consul points out how, in view of recent developments in Europe, it may some day open up an extensive field for the employment of capital and labor. The application of this substance seems to be practically endless.

Renewed interest in the Waller case has been aroused at Washington by the receipt of a telegram from Ambassador Enstis, announcing that the record and accompanying documents had been received at the foreign office in Paris, and were being translated. Although Mr. Enstis does not say so in his dispatch, the presumption is that the French government, in accordance with its promise, will deliver a copy to Mr. Enstis as soon as the translation is completed.

The consul general of the United States at Mexico City has sent to the state department a detailed report upon the changes proposed to be made by the Mexican government in the tariff system of that country through bills now pending before congress. The purpose is to abolish the system of interstate tariff duties known as the "alcabala." The consul general believes that if the proposed changes are agreed to our trade with Mexico will be greatly increased, for the old system has restricted American enterprise and repelled American capital.

Pension Roll Increases.

A year ago Commissioner of Pensions Loebren said that the limit had probably been reached in the number of pensions, or rather in the amount to be yearly appropriated for pensions. It was his opinion that there would be a slight reduction in the number of pensioners on account of deaths, but that the allowance of new pensions with back pay and arrearage would probably keep the amount about even.

While the amount of money paid for pensions will not be materially different from that of past years it appears that there has been added to the pension rolls during the year about a thousand names in excess of those that have dropped out, so that there has been an increase instead of a decrease.

There have been a great many outstanding pension claims adjusted during the year, and that accounts for the large increase. The year has not been very fatal to pensioners, the death rate being less than would be anticipated at the time of life at which the veterans of the late war have arrived.

The Venezuelan Question.

Interest in the Venezuelan question is constantly growing in official circles. The leading advocates of the Monroe doctrine are taking such action that it will be impossible to relegate this question to the background and it must come forward. Either the administration will take the initiative and enforce the Monroe doctrine or the matter will be taken up in congress and its enforcement worked for there.

It is learned on the best authority that the state department is now engaged in collecting all data bearing on the Venezuelan boundary dispute with a view to be in readiness to act at the proper time. It is learned from semi-official sources that not long ago, when this matter was being discussed by the president and several of his friends, Mr. Cleveland said he proposed to enforce the Monroe doctrine, and referring to the Venezuelan boundary dispute, indicated his intention to take some action in due time looking to the carrying out of the great American principle of having the monarchies of the old world keep their hands off the western continent.

The characteristic of Shakespeare is everything; of Milton, elevation.

AN ELECTRIC PLANT.
Chattanooga Parties Get the Contract for a Street Railway.

At a meeting of the board of aldermen of Meridian, Miss., a resolution to award the franchise for the operation of an electric light plant to furnish lights for the city and motive power for the railway to W. R. Hall and associates, of Chattanooga, Tenn., was unanimously passed. The board of council has concurred with the aldermanic board in the adoption of the resolution.

Danville Tobacco Firm Assigns.

Stult, Lisberger & Co., large tobacco manufacturers of Danville, Va., who do an extensive business in the south and west, have assigned to P. H. Boisen, trustee. Liabilities \$75,000; assets nearly that amount.

C. M. Sparkmann & Co.
DEALERS IN—
